**DSEC9** is Monria's expansion dimension but it is located on the Planet Toulan server to allow for full control of content development. It is comprised of three separate map sections, each with its own theme, but all, including Monria and Toulan, are connected through official lore. The first map section referred to as DSEC9 is an automated mining outpost originally operated by the DSEC mining corporation of Monria. It is now controlled by DEC (Detached Ego Consciousness) who overthrew his creators who were using him and artificial intelligence to control the local fauna. **ELARA** is the second map section that reveals the Lotus Temple. The temple is sacred to HM Queen Nara as it is part of her homeland. There are Lotus Invaders attempting to take over the temple, and it is dire that the temple be protected at all costs. The Lotus Temple instances provide a variety of challenges. MOUNTAIN OF MADNESS is the third and final map section and very much entrenched in the Monria Cthulhu Mythos-themed official lore. The village of Larches Green was inspired by historical lore and the great exodus from Teaksbury on Earth by Decca, Leader of the Cult of Shut'thend, who has a specific agenda to take back control of Monria, and extend that control to DSEC9 and Planet Toulan. The focus of the dynamic events is to encourage group play and team work toward gaining rewards. © 2024 DSEC9 / Virtualsense, Ltd. All Rights Reserved.
